

# The Young Academy of the Lithuanian Academy of Sciences

Hamburg

01 November 2019

# Facts

- **Founded:** A resolution of the General Meeting of the members of the Lithuanian Academy of Sciences of **24 September 2018** laid the foundation for the establishment of the Young Academy of the Lithuanian Academy of Sciences.
- **The Aim:** It promotes their creative, scientific and expert activities, represents the interests of young Lithuanian scientists, provides opinions on issues of Lithuanian research policy, creates conditions to pursue an academic career, to communicate with young academies of other countries, to raise the prestige of science and the availability of science-based knowledge in society, to analyse the development of science in an academic environment, to activate academic mentoring.
- **Membership:** The applicants shall be motivated by the activities of the Young Academy, will have achieved significant scientific results, and shall be active professionally and socially. They should have obtained the doctoral degree not earlier than 10 years before the final date of the submission of documents and shall be not older than 40 years of age before the said date. Up to ten (10) members shall be elected in the first year, and up to 10 new members shall be elected each following year. A maximum of forty (40) members shall be elected for a single term. The duration of the term in office shall be four years. At the end of their term in office, the members of the Young Academy of the Lithuanian Academy of Sciences shall become alumni of the Young Academy.

# The governance of Young Academy
