

Professor Hans Jürgen Voigt

Foreign Member of the Lithuanian Academy of Sciences since 2002

Professor, habilitated doctor of natural sciences Hans Jürgen Voigt is German hydrogeologist. He was born 11 04 1945 in Dabeln, Germany.

EDUCATION

1969 Study of Hydro- engineering geology, Institute of geological exploration, Moscow, Russia

1975 Doctor's degree (D. Sc.) at Institute of geological exploration, Moscow

1985 Habilitation at Mining Academy, Freiberg, Germany

1993 Habilitation for hydrology at Technical university, Berlin, Germany.

PROFESSIONAL EXPERIENCE/ OVERVIEW

1970–1977 Central Geological Institute Berlin, Hydrogeologist

1977–1985 VEB Hydrologie, Berlin GMBH, Berlin: Head of the Applied Geology Department

1985–1998 FUGRO CONSULT GMBH, Berlin: Head of the Environmental Geology Department

1998– Brandenburg Technical University of Cottbus-Senftenberg (BTU): Head of chair for Environmental Geology

PROFESSIONAL EXPERIENCE/ SPECIALIZATION

Groundwater mapping and contaminated areas; Risk assessments for landfills; Project management for the environmental site investigation of former filling stations and underground storage tanks of abandoned military sites; Projects management of investigation and remediation of contaminated sites; International hydrogeological, geotechnical and geophysical projects; Project management for the design of a groundwater monitoring for the county Brandenburg, etc.

Hans-Jürgen Voigt is active in a number of German public geological organisations: he is a member of the International Hydrogeological Association of Hydrogeologists and has substantial experience in the implementation of various technical projects in the protection of groundwater.

H.-J. Voigt's collaboration with Lithuanian geological organisations started in 1979.

From 2002 to 2006, he was a deputy editor-in-chief of the journal *Grundwasser*, and since 2008 he has been a member of the research committee of the of the international geosciences journal *Baltica*. He has written articles on hydrogeology and groundwater management, monitoring, and protection.
