

14th Conference of Young Scientists

## Interdisciplinary Research in the Physical and Technological Sciences

Friday, 17 April 2026  
Lithuanian Academy of Sciences,  
3 Gedimino Ave, Vilnius, Lithuania

**The aim of the conference** is to share the results of research conducted by young researchers in the natural and technological sciences, their work carried out at the intersection of these fields, to encourage collaboration among young scientists, and to discuss issues of mutual research interest.

**Topics in the natural and technological sciences suitable for the conference include:** research in physics, biophysics, chemistry, biochemistry, materials science, mathematics, astronomy, and space research.

Submissions related to national defence, quantum technologies, artificial intelligence, high-performance computing, solutions for technological security and resilience of society, technologies in the context of climate change, research in electronics, computer science, mechanical engineering, energy, and civil engineering are also invited.

**Presentations:** oral (10 minutes) and poster

**Participants:** students, PhDs, and business and innovation professionals under 35 years of age involved in research at all levels.

**The IT company NOVIAN and the public institution VISORIAI INFORMATION TECHNOLOGY PARK (VITP) have established eponymous scholarships for the authors of the best papers in the fields of space, defence, quantum technologies, and artificial intelligence!**

**Should you have questions, please write to us at [FTMTTkonferencija@gmail.com](mailto:FTMTTkonferencija@gmail.com)**

Registration is open until 7 April 2026
